

A man with dark hair, wearing a dark suit jacket over a white shirt, is smiling and standing in front of a dense city skyline. The skyline includes several tall skyscrapers, with the Empire State Building being prominent in the background. The image is in black and white, except for the man's face and shirt which are in color.

Allstarcharts EDU

Technical Analysis is the study of the behavior of the market and market participants. As a Professional Technician, I use many tools that help me analyze price and, as a supplement, derivatives of pure price like momentum and relative strength. In this Educational Series, I will share with you what these tools are, how to use them and how I personally incorporate them into my process. This originally started out as just a collection of Educational Posts I've written over the years but has turned into a work in progress. I will be adding to these modules regularly over time.
